

The mission of the Iowa Department on Aging is to develop a comprehensive, coordinated and cost-effective system of long term living and community support services that help individuals maintain health and independence in their homes and communities.

State Long-Term Care Ombudsman 2011 Annual Report

Federal Fiscal Year October 1, 2010 through September 30, 2011

8
Number of Local Long-Term Care Ombudsmen in Iowa

The Office of the State Long-Term Care Ombudsman (OSLTCO) advocates on behalf of frail and vulnerable Iowans living in facility based environments, primarily nursing homes, residential care facilities and assisted living programs. The priorities and duties of the OSLTCO are outlined in Title VII of the Federal Older Americans Act. The OSLTCO routinely responds to and resolves complaints or concerns received by or on behalf of these individuals. The OSLTCO focuses its attention on the quality of services individuals are receiving and overall resident satisfaction with their living environment.

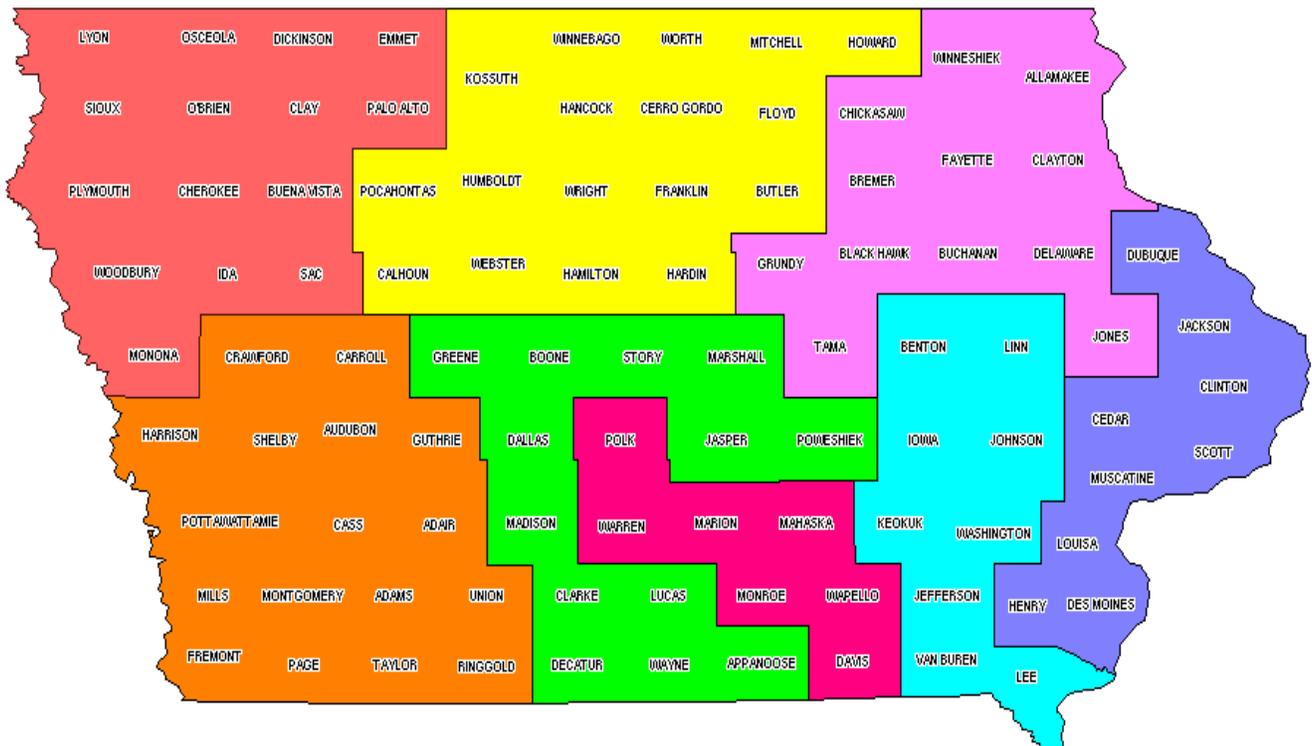

854
Number of Care Facilities Iowa

2,346
Number of complaints in FFY 11

The OSLTCO meets its federal mandates in a variety of ways, including but not limited to the provision of detailed information to consumers of long-term living and community support services; working to resolve problems and barriers residents of long-term care facilities may encounter; and by being a visible and vocal public policy advocate.

1,127
Number of Cases Opened in FFY 11

Media Interviews	11		12	5	9
Monitoring Laws	5%	.5%	1%	4%	4%

*Until 2008 all non-complaint related visits have been reported, however the Administration on Aging has defined this activity as “the number of facilities receiving at least one visit per quarter, not in response to a complaint.” It is not the number of visits made. Iowa local long-term care ombudsmen made 1,105 non-complaint related visits to facilities during the past year but only 13 meet the AoA definition.

OVERVIEW

During FFY 2011, complaint categories have remained stable and calls received by the OSLTCO continue to increase. The OSLTCO has noted an increase in the number of complaints which focus on residents self-reporting concerns related to privacy and the ability to make choices regarding the manner in which they receive care, including the right to refuse care or treatment.

The level of care needed by individuals living in facility based environments continues to increase. As this occurs, Iowa must consider public policy which balances the long-term living system; provides residents with well trained staff who are able to meet the needs of frail and vulnerable adults and considers the rights, dignity and preferences of the person served.

Iowa continues to be one of four long-term care ombudsman programs in the nation that does not have a certified volunteer ombudsman program.

RECOMMENDATIONS

- Establish a fully functioning volunteer ombudsman program that meets the criteria set forth in the Federal Older Americans Act.
- Strengthen Family & Resident Councils
- Increase collaboration between the OSLTCO and Iowa's Aging Network
